Roll of Thunder, Hear My Cry
by Mildred Taylor

Teaching Unit
by Amy Rodas
Teacher's notes

Roll of Thunder, Hear my Cry is a powerful book. It really makes anyone who reads it open their eyes and realize that their own lives are fare better than that of the Logans.

There are twelve lessons to this book. Each lesson is accompanied with a worksheet to go over vocabulary terms and comprehension for each chapter. The lessons themselves are very simplistic. This was done on purpose to allow the teacher to teach each lesson the way he felt the class can best learn from this book. There are no written out quizzes or an ending test. However, if the teacher does decide to give quizzes it is suggested to be done every three chapters. There are also four suggested projects as follows:

* Build a replica of the Logan homestead by he descriptions in the book
* Make cornbread from scratch
* Keep a journal the whole time while reading the book, making entries if one of the Logan children.
* Write a letter to the State asking for funds to obtain a bus.

These projects can be done throughout the book or at the end. The teacher can also make up new ones.

The teacher should also be aware of two words that are used in the book that may not be suitable for children. How the teacher deals with these words is up to him. The word hell is found on page 150. The word nigger is found on the following pages: 39, 40, 48, 84, 111, 114, 180, 225, 226, 247, 251, 254, and 255.

Lesson Plan #1

Intro: Pass out the books to the class. Have a student read the title of the book and its author. Give the class a brief summation of the life of Mildred Taylor. Have a student read the Author’s Note on the inside of the book. Ask another student to read the story summary on the back of the book cover. Ask the students to think about the title of the book and what it might mean in the connection of the story.

Have the students tell you what they know about the Depression. Explain that many families, white and black, were extremely poor during this time in history because the economy was not doing well at all. Explain that people were so poor, that they could not afford to buy new clothes when they were needed. Also give a little background on the position the farmers were in and how they had to sell their land because they could not afford to keep up on the payments.

Now jump to the fact that after the civil war there was still a lot of hatred towards black people and the prejudice continues on to this day (however, not as severe). Tell the class, “By reading this book, we will open up a chapter in the past and get a look at how it was like to live during the depression as a white person and as a black person. I think it will show us that we take many things for granted today, things that people like the Logan family, in our story, try so hard to obtain and keep, like freedom”. Ask the class to name some other things that the Logan family might have to work hard for that we now a days don’t.

Lesson: Tell the class that today we will read part of chapter one in class. This chapter introduces the 4 Logan children, Stacey, Cassie, Christopher-John, and Little Man, on their way to school. Note to the children that the dialog in this book has a lot of broken English and might be a little difficult to get use to at first.
